

SOLDIERS FROM SOUTH AFRICA.

London Preparing a Welcome for the Imperial Volunteers.

MORTALITY AMONG TROOPS.

Exceeds that of the Germans in 1870—Cost of the War Enormous—Was Long Driven Out.

London, Oct. 27.—The preparations here to welcome on their return to England from South Africa, the few hundred men who constitute the city mobilized England's attention this week, banishing from notice matters of international import. Although this, about half a regiment of young Londoners, brokers, clerks and others, has not performed any very heroic feats, thousands of people are pouring into London in order to witness their homecoming and windows along the line of march have been sold at prices almost equal to those demanded at the time of the jubilee procession. In addition decorations and illuminations costing many thousands of pounds have been prepared and business and traffic will be practically suspended the whole day when they arrive and Saturday night will doubtless witness a repetition of the Mafeking carnival.

INTENSE PATRIOTISM. It is pointed out that the intense patriotism which all this is supposed to signify would be better appreciated were the returning soldiers more representative of the forces in the field or if there were not hundreds of colonial volunteers who have fought in South Africa walking the streets of London, unharmed, unnoted and uncared for. This circumstance has caused some bitter reflections on the part of those who have fought in South Africa, the justice of which has been acknowledged by several liberal-minded organs, while the regular army men are not too pleased that the "cream of public enthusiasm" over the return of the troops should be secured by a small body of volunteers which, it is freely asserted, cannot compare with several of the irregular units.

NEXT BIG CELEBRATION.

The next big celebration will probably occur Monday, Nov. 10th, when General Buller is due at Southampton. He will receive the freedom of several cities and will doubtless have a triumphal progress, though the reception which will be accorded to Lord Roberts will, of course, eclipse the celebration which will attend Buller's return to England. Lord Roberts is expected in December, and the same month, a representative of the Associated Press learns, another distinguished Britisher, Cecil Rhodes, will return from South Africa.

GREAT COST OF WAR.

In the midst of the preparations for celebrating the return of the victorious soldiers it is not astonishing that the people generally fail to realize how extremely costly and long drawn out has been the struggle in South Africa. Statistics carefully prepared up to date by one of the largest insurance companies show that, proportionately, more Britishers were killed than the Germans lost in the war with France of 1870-71, while the proportion of those who succumbed to disease was three times as great. Among the rank and file the Germans had 50 per cent more men killed but from disease Great Britain suffered 81 per cent heavier than the Germans. This increase is of such magnitude that even the climatic differences fail to account for it. It is asserted that the Great Britain put in the field as many troops as Germany did against France and had maintained proportionate casualties her mortality would have reached 35,358 men.

SIMS REVEALS AN IDOL.

The death of Sims Reeves on Thursday last at Worthing rendered an idol of the British public, who, for thirty years, eclipsed any prima donna of the stage. Lengthy obituaries and reminiscences of the tenor appeared on all sides. But a pathetic feature connected with his death has quite escaped attention. Reeves caught a few days ago and it developed into bronchitis. But his condition was so improved Thursday morning that he was not believed to be in danger. Mrs. Reeves, who is many years younger than the deceased tenor, to whom she was married in 1850, after the death of his first wife, left her husband in a modest home in Worthing to sing in London for the benefit of the survivors of Balaklava. As Mrs. Reeves commenced singing "Kathleen Mavourneen," a telegram was received at the theater announcing the death of Sims Reeves. When the song was finished and the applause at its height, the news of her husband's death was broken to Mrs. Reeves, but the audience, ignorant of this behind the scene tragedy, kept on demanding encores. The widow was removed from the theater on the verge of collapse.

MARLBOROUGH SUE.

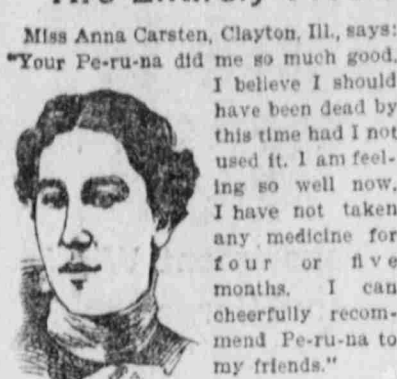

Lady Dukes Beresford (formerly Lillian Dukes, Marlborough) has brought action against the young duke of Marlborough to recover the money which she spent in improving Blenheim Palace during the life time of the last duke. The duke, who was originally the present duke succeeded to the title, but owing to the friendly relations existing between the duke and his step-mother, it was temporarily arranged. Since the duke's marriage to Consuelo Vanderbilt, it is reported, an estrangement has grown up between Lady Beresford and her step-son. On more than one occasion, it is said, the young American duchess snubbed her countrywoman, (Lady Beresford was formerly Mrs. Louis Hamersley of New York). Mrs. Beresford determined she could not submit to such treatment any longer, and she now asks the law to compel her step-son to return the amounts she spent on Blenheim.

ARISTOCRATIC DIVORCE SUIT.

Another aristocratic law suit, which will shortly be heard in camera, is the application as already cabled to the Associated Press of the Marchioness of Anglesey, to have her marriage with the marquis, who is head of the Paget family, declared null. They only became man and wife in 1888, but it was strictly a marriage of convenience, and between cousins, arranged for the sake

IT IS A PITY SO FEW WOMEN

Are Entirely Free From Pelvic Catarrh.

Miss Anna Carsten, 502 Scott street, Clayton, Ill.

Miss Anna Carsten, Clayton, Ill., says: "I was a most miserable sufferer from falling of the womb, weak ovaries, and leucorrhoea, which caused me to be confined to my bed for a long time, being too weak to bear my own weight even upon my feet. I was treated by the most reputable physicians in our city. They could do nothing for me. I am most happy to say that in three months after I began taking Pe-ru-na I was well—entirely cured without any appliances or support of any kind."

G. A. Proehl, New Portage, O., writes: "My wife has been sick for about five years. In the first place the doctor called it leucorrhoea, and treated it about one year, when it turned to ulceration of the womb; she was then treated for that for two years, when the doctor gave her up. She could not walk for nearly two years. She then tried your Pe-ru-na. She has taken three bottles and it did her more good than any other medicine."

A vast multitude of women have

of inheriting property which, otherwise, could not have been touched by either of them. They both agreed to live their own lives. Apparently this extraordinary arrangement did not work well in more ways than one. It is asserted that the marquis agreed to give his wife \$5,000 the first year and \$6,000 the second year, and so on until the allowance reached \$10,000 a year. However, the alleged allowance was stopped almost immediately. Lady Anglesey, who describes herself as "otherwise cheerful," her maiden name was Chelwynd, and she was married to the marquis to get out of the bargain, and it is rumored, if successful, she will marry Count Herman von Hatzfeldt.

EMPEROR DOWAGER SERIOUSLY ILL.

Tien Tsin, Oct. 26.—Information has been received from Japanese sources that the empress dowager is seriously ill at Tai Chuen Fu, and that the most prominent physicians in the empire have been called to attend her.

FRANK YOUNGER'S FUNERAL.

Miner Who Was Killed in the Mine Buried Today.

The funeral of Frank Younger, the young man who lost his life in the Fortune and Keystone mine in Bing-ham last Thursday, was held from the parlors of Undertaker Watson this afternoon. The body was brought to Salt Lake last evening by Prof. Younger, father of the deceased. When he went to work on the fatal night, the man whom he relieved, and also James Stock, the foreman, warned him of the unsafe condition of the wall where he was going to work, and was told to timber the place before doing any stopping. He had not been working over five minutes before the cave-in occurred and he was buried alive.

Deceased was a brother of Mrs. Doctor Sharp, and his father, who is seventy years of age is terribly grief-stricken over the affair. The expense of the funeral was defrayed by the mining company.

RUBBED IT IN.

Third Time Won.
"Last Xmas I took dinner with a minister's family in New Haven, and although the spread was elaborate and appetizing, nothing was so good as the Grape-Nuts food, standing by the minister's plate. He said: 'I have taken medicine after medicine, but nothing has brought relief to body and brain like this food.'"

"His wife echoed the sentiments and said she could never tell how much brighter and braver she has been since the advent of Grape-Nuts into her home."

"A week later I called to see a widow who had a broken arm. I expected to find her disconsolate, but to my surprise, she was greeted with cheerful smiles. 'Well,' I said, 'How is this, I expected to find you in the depths of despondency.' 'Oh, no,' she said, 'I could not cook very well with a broken arm, but with a little hot milk added to a few spoonfuls of Grape-Nuts, I get a most delicious meal that builds up my strength by the wholesale.'"

"This was the second time I had seen Grape-Nuts in the character of a public benefactor. Before night I received my third glimpse of Grape-Nuts, when calling on a little child who had burned her hand. Her mother was just preparing a sauce of strawberries and Grape-Nuts food. 'Do you like it?' said I. 'Oh, don't I?' said the child. 'It's so good it most makes me forget my burn.'"

"Now I can easily walk ten blocks as one, difficult duties are easily accomplished and all the burdens of life are lightened by the astonishing power of good and well selected food. I have taken no medicine, stringing this time, therefore I can only attribute the agreeable change to the sure help that comes daily from the use of this remarkable food." Jennie May Summer, 69 Abbott Ave., Waterbury, Conn.

found Pe-ru-na an indispensable remedy. It meets all their irregularities, critical periods, and peculiar weaknesses.

Mrs. Anne Randall, Caro, Mich., says: "This letter leaves me well, I do sincerely think by reason of your good advice and great medicine, Pe-ru-na. It has brought back my health to me in my older days. I am now a new woman, physically. I think Pe-ru-na the best medicine in the market."

Women are even more subject to catarrh than men. The chief cause is the delicacy of her organism, as compared to man. This explains why, in part at least, so few women are entirely free from catarrh. Catarrh of the pelvic organs is generally called female disease.

Miss Sadie Martinot, the prominent young actress, writes to Dr. Hartman in regard to Pe-ru-na, as follows: "It gives me great pleasure to recommend Pe-ru-na to members of my profession. I have found it most helpful. I consider Pe-ru-na of especial benefit to women and particularly recommend it to them. My dressing table is never without it."

Everywhere the people, especially the women, are praising Pe-ru-na as a remedy for all forms of catarrhal difficulties. Send for free catarrh book. Address Dr. Hartman, Columbus, O.

DIED FROM NATURAL CAUSES

The Jury Renders a Verdict inquest Over the Body of Mrs. Burnham.

Yesterday afternoon a jury composed of Joseph Boehmer, Henry Tribe and W. Green, held an inquest before Justice Morris Sommer over the body of Mrs. Lulu Burnham who died so suddenly Thursday afternoon. Some of the circumstances surrounding her death caused some to entertain the idea that she had taken poison but absolutely no evidence was found to confirm or even give shadow to it. From the testimony of her husband it was learned that she had suffered from heart trouble. The jury returned a verdict that she came to her death from natural causes.

FIRE CHIEFS HERE.

Chief Devine Entertained Two from New Zealand Yesterday.

Chief Devine was busy yesterday afternoon entertaining two noted fire chiefs. They are James G. Gilbert, chief of the fire brigade of Napier, New Zealand, and E. Smith, of the fire brigade of Christ Church, New Zealand. The chiefs have been visiting the larger cities of America and are now en route home. They attended the fire chiefs' convention, held recently in Charleston, S. C. The gentlemen have had a most enjoyable time in this country and will sail from San Francisco next week.

YOUNG WOMAN ARRESTED.

Her Mother Has Reason to Believe Her Mentality Unbalanced.

Early this morning an officer arrested Zoda Bohman, a woman 21 years of age, and locked her in the city jail. The arrest was made at the instigation of her mother who believes her daughter to be insane. According to her statement the girl has been leaving her home at nights and wandering off. This morning she was found in a West Temple street rooming house.

N. S. Timpon of the Forest Dale choir was the recipient of a pleasant testimonial, given last Wednesday evening in the Old Farm House by the members of the choir. A program, consisting of songs, recitations, etc., was rendered. Refreshments were then served, and the evening's entertainment was concluded with a dance. During the evening Elder Timpon was presented with a beautiful gold locket for his watch chain, to which he responded with a few appreciative remarks. The evening was thoroughly enjoyed by all present, and the expression of good will to Elder Timpon will undoubtedly be long remembered by him.

SILK INDUSTRY IN THIS STATE.

Secretary of Agriculture Will Send An Agent to Investigate.

DISCOURAGED HERETOFORE.

A Growing Industry in This State and West—Manufacturers in East Writing for Information.

To the Editor:

We are very sure that the people of our States and especially those who are interested in silk culture in Utah will be very happy to learn that the interest is not only growing here, but much interest is manifest in the east. Some manufacturers who, in the past, have done a great deal to discourage its production in the United States, through a knowledge of the quality of the silk produced here, with the fact that it can be as well reeled in this country as in the silk producing countries of the Old World, if not better, have, during this year, written for further information and in some cases have requested people coming here on other business to make investigations for them. As a result of the information we have been able to give them, we were very happy a few days ago to receive a letter from Hon. James Wilson, secretary of the department of agriculture at Washington, stating that the only man they have who is competent to investigate this subject will be here early in November to thoroughly look into this matter. No person of intelligence can fail to fully realize the great benefit which has come to agricultural people of this country through this department in the knowledge it has given through printed documents and the establishment of agricultural colleges and experiment stations in different parts of the United States, and having done so much in the old established lines, we are confident the people of the State will join with us in the hope that the time has come when some attention can be given to new possibilities. We have done a great deal to extend the knowledge and interest in the importance of this agricultural product since the establishment of our own silk commission in Utah, and while we are greatly encouraged in the work that we have been able to accomplish, it has not failed in convincing us that a broadening of the work will undoubtedly insure a more rapid growth. If not in our own State, it may extend the work to others, and there is no fear of any of us ever living to behold an export production of silk. We sincerely hope this visit will, in time, bring a permanent benefit.

MARGARET A. CAINE,
Secretary Utah Silk Commission.
